Govt Member)

3 The Question seems to be one of practice. You may make it clear to Govt that the whole balance of D. W. Fund has to be spent on wells & not for any of the purposes. As to the mode of spending, the Board might have more discretion, if necessary over the whole sum must be spent for wells & as soon as possible.

be
19/12/27

Instead of asking for a blank cheque I shd ing said details for each well & get sanction of Board for each.

4 I spoke about this matter to the President of the Dt Bd. He said that the Board would to sanction wells even for individual villages as this would enable members coming from the Mofussil to represent the needs of their localities and they could not be sure that their constituents interests would be met if the Rev Dept had the disposal of the funds. He said also that for all the money in their hands the Bd had works going on & that they would require even more money before completion. If the Dt Bd would send all requests for wells to the Bd the Bd would do their best to meet the demand.

5 This is perhaps the best course. In Hassan Dt this was ordered to be done last year. Dt Bds have also been told that they can sanction wells to single villages.

6 The Dy. Commr Bangalore will if approved be asked to keep whatever applications he can sanction from the amount provided from Govt and send other applications to Dt Bds

7. Please get the actual facts from Dt Board Assmpt of balance under Dt Bd Dy Commr of Bangalore under Drinking water wells Commitments of Dt Board today & report by Telephone or send messenger

SUBJECT :— V. P. 10- 27 -12

SIR,

I have the honor to state that on receipt of Government order No. L.1032-49/V.P.10-27- dated 23rd August 1927, I asked the District Board to contribute Rs.5,000/- and to place the amount at my disposal. But no reply has yet been received in the matter. I have therefore again reminded the President of that Board.

2. I have received 60 estimates amounting to Rs.32,094/- for wells for villagers and 27 estimates involving Rs.8,571/- for wells for Adikarnatakas. As understanding rules if the villagers contribute 1/3rd of the estimate in cash or labour we have to sink wells, and as the contributions received in cash and labour come to Rs.10,729/- I have to find a sum of Rs.21,365/- for wells this year.

3. This amount is in addition to the wells for the Adikarnatakas, some of whom have given a labour contribution amounting to a sum of Rs.777/-. As they are not expected to make any cash contribution the balance of Rs.7794/- has to be found by Government. The total amount required for wells for Adikarnatakas is therefore Rs.7,794/-. As however, the Adikarnatakas do not give any real contribution, I have asked the Amildars to submit revised estimates for pot-ring wells only. This may, I think, reduce the estimates considerably.

4. The amount placed at my disposal is not sufficient to sanction works either for the Adikarnatakas or for the others. I therefore propose giving Rs.2,500/- to the Adikarnatakas out of the grant of

As however, the Adikarnatakas do not give any real contribution, I have asked the Amildars to submit revised estimates for pot-ring wells only. This may, I think, reduce the estimates considerably.

4. The amount placed at my disposal is not sufficient to sanction works either for the Adikarnatakas or for the others. I therefore propose giving Rs.2,500/- to the Adikarnatakas out of the grant of

of Rs.7,000/- sanctioned for sinking wells in this District. I am sanctioning the works up to the amounts available in the following order:-

1. Works in which contributionshave been fully paid up or worked out.
2. Works in which cash contribution has been fully paid up and labour contribution partly worked out.
3. Works in which the contribution has been rendered either wholly or in part in the shape of labour
4. Works in which contribution has been promised but not paid up or worked out.

5. There is a balance of Rs.35,601/- in the Drinking Water-wells Fund of this District. I would request you to move the Government to direct that the District Board retain only so much amount as is necessary for completing the incomplete works and place at my disposal the entire balance, so that I might carry out as many works as possible during the current year. I am submitting this proposal for the reason that the sinking of wells in villages has been transferred from the District Board to the Village Panchayats.

6. I request the favour of very early orders in the matter.

I have the honor to be,
Sir,
Your most obedient servant,

G.M. Shivalkar

Deputy Commissioner,
Bangalore District.

D.O.No.C2(a)971/27-28. OFFICE OF THE DEPUTY COMMISSIONER,
Enc. one. BANGALORE DISTRICT,
Bangalore, the 10th January 1928.

Dear Sir,

I enclose herewith a copy of my letter to the General Secretary to the Government for the information of the Dewan.

The Government have sanctioned a grant of Rs 7000/- for well works in this District and I have received estimates from the Taluks amounting to Rs. 32094/- and Rs 8571/- for wells for villagers and for Adikarnatakas respectively. The Government allotment being inadequate the President of the District Board was addressed to move that Board to make a grant for well works but no reply has yet been received from him.

From the Budget Estimates of the District Board for the year 1927-28, it is seen that there is a balance of Rs 35601/- in the Drinking Water Wells Fund at the credit of the Board. In my opinion the Board ought to hand over the whole of this amount to me for new wells - as several villages have an extremely inadequate water supply even in bumper years. The cost of completing the incomplete well works handed over to the District Boards may be met out of the balances at the credit of the Taluk Boards including investments, which were transferred to the District Board Funds as they have been directed by the Government (vide General Secretary's letter No.L.264-79/L.B.170-26-12 dated 16th July 1927) to be utilised for improvements in the taluks to which they relate.

I have already allotted all the available funds and I cannot sanction any more wells unless more money is given to me. As I am receiving representations regarding acute scarcity of drinking water in several villages, I am making this appeal for funds. I have also written officially in the matter.

Yours sincerely,

M. S. Ramachandra Rao, Esq., B.A.,
Private Secretary to the
Dewan of Mysore, Bangalore.

Proceedings of the Government of His Highness the Maharaja of Mysore.

Read

G.O.No.L.491-9/L.B.177-26-2 dated 22nd July 1927, passing orders in regard to the prompt adjustment of outlay on District Board Works carried out by the State Public Works Department.

ORDER No. L 6287-96 Dg 9-4-28

It has been brought to the notice of Government that ~~as a rule it has not been possible for~~ one of the reasons has been unable the Department of Public Works to fully work out the allotments made in the Budgets of the District Boards for the construction and repair works of roads ~~on account of the fact~~ that there ~~usually~~ is ~~some~~ delay ~~on the part of the Presidents~~ in the Offices of the Presidents of District Boards in countersigning the estimates ~~sent to them by the Department of~~ of the Dept of P.W. Public Works. ~~The District Boards have,~~ It has also been stated, on the other hand, ~~explained~~ that ~~the failure~~ delay is due to the facts that the estimates are often exceeded and that requests for information required in regard to such excess expenditure are frequently either not complied with at all or not complied with in time.

2. With a view to enable the Public Works Department to fully work out the allotments made in the District Board Budgets for road works, Government are pleased to issue the following instructions:--

(1) The Department of Public Works may incur excess expenditure up to a limit of

5 per cent of the estimate under each item and up to the same limit of the total estimate with regard to any work executed for a District Board.

(2) Where the expenditure is likely to exceed the limit prescribed in para(1) above, the Public Works Department should give full explanation for such excess and obtain the previous permission of the District Board.

(3) In respect of every work undertaken by the Public Works Department the Executive Engineer will furnish the District Board with a completion report.

(4) The amount provided for one item of work should not be appropriated for another except with the approval of the District Board.

(5) The Public Works Department must be responsible for the timely execution of the works and the proper up-keep of the roads.

(6) The District Boards must promptly issue a crossed cheque for the amount claimed by the Department of Public Works for works executed in accordance with the rules.

3. Government consider that provision should be made in the District Board Budget for the annual repairs of District Board buildings and that provision calculated at 1½ per cent of the value of the building may be made in the future budgets.

4. Government also consider that District Board works could be more efficiently executed if all works costing more than Rs.500/- are executed through the agency of t

G. O. No. L. 6287-96—V. P. 10-27-35, dated 9th April 1928

(1) Prompt execution of District Board Road Works and adjustment of outlay thereon. (2) Execution of all District Board Works costing more than Rs. 500 and (3) Provision for Repairs to District Board Building.

Passes orders in regard to the ——.

READ—

Government Order No. L. 491-9—L. B. 177-26-2, dated 22nd July 1927, passing orders in regard to the prompt adjustment of outlay on District Board Works carried out by the State Public Works Department

ORDER NO. L. 6287-96—V. P. 10-27-35, DATED 9TH APRIL 1928.

It has been brought to the notice of Government that the Department of Public Works has been unable to fully work out the allotments made in the Budgets of the District Boards for the construction and repair works of roads on account of the fact that there is delay in the offices of the Presidents of District Boards in countersigning the estimates of the Department of Public Works. It was also been stated, on the other hand that delay is due to the facts that the estimates are often exceeded and that requests for information required in regard to such excess expenditure are frequently either not complied with at all or not complied with in time.

2. With a view to enable the Public Works Department to fully work out the allotments made in the District Board Budgets for road works, Government are pleased to issue the following instructions:—

(1) The Department of Public Works may incur excess expenditure up to a limit of 5 per cent of the estimate under each item and up to the same limit of the total estimate with regard to any work executed for a District Board.

(2) Where the expenditure is likely to exceed the limit prescribed in para (1) above, the Public Works Department should give full explanation for such excess and obtain the previous permission of the District Board.

(3) In respect of every work undertaken by the Public Works Department the Executive Engineer will furnish the District Board with a completion report.

(4) The amount provided for one item of work should not be appropriated for another except with the approval of the District Board.

(5) The Public Works Department must be responsible for the timely execution of the works and the proper up-keep of the roads.

(6) The District Boards must promptly issue a Crossed Cheque for the amount claimed by the Department of Public Works for works executed in accordance with the rules.

3. Government consider that provision should be made in the District Board Budgets for the annual repairs of District Board buildings and provision calculated at 1½ per cent of the value of the buildings may be made in future budgets.

24

No. L. 6287-96—V. P. 10-27-35, dated 9th April 1928.

4. Government also consider that District Board Works could be more efficiently executed if all works costing more than Rs. 500 are executed through the agency of the Department of Public Works. The District Boards would be well advised to arrange for the execution of all such works through the agency of the Department of Public Works in future.

To

The President,

District Board, Bangalore

(Through the Deputy Commissioner, Bangalore)

Sir,

I am directed to state that it has come to the notice of Government that the Closepet-Magadi and Magadi-Bangalore roads under the administration of the Bangalore District Board are very badly in need of repairs. The repair works of these two roads may be taken up at once and completed in two years.

A sum of Rs. 15,000 may kindly be provided at once for the repairs of the Closepet - Magadi Road and a sum of Rs. 10,000 for the ~~r~~repairs of the Magadi-Bangalore Road, the amount being met from the balances transferred to the District Board from the (defunct) Taluk Boards of Closepet and Magadi.

The question of Government grant, if any, for the Magadi-Bangalore road will be considered after the provision made in respect of this road has been spent.

I have etc.,

III

Proceedings of the Government of H.H. the Maharaja of Mysore.

Read:--

D

Circular letter No. 8611-18/V.P. 24-26-2 dated the 2nd June 1927, to the Deputy Commissioners of Districts, issuing instructions in regard to the completion of works undertaken from Drinking Water Wells Fund.

Order No. L. 8923-40

Bangalore, dated 21-6— 1928.

As it has been brought to the notice of Government that grants made out of State Funds for the construction of wells in rural areas during the year are insufficient to meet the programme of well works taken on hand, Government are pleased to direct that such grants may be supplemented by grants from the balances at the credit of District Boards under the head "Drinking Water Wells Fund".

Deputy Commissioners are requested to supply Presidents of District Boards with a full statement of their incomplete works and it will be open to the latter

27

either to take over such incomplete wells and complete them or to make such grants as the funds at their credit permit.

3. Programme of well works in rural areas should in future be fixed by the Deputy Commissioners of Districts in consultation with District Boards after an examination of the resources available with both. As far as possible all wells taken up during a year should be completed that year. A reserve should always be kept for meeting emergent demands which may arise on account of adverse seasonal conditions or other circumstances.
